Projects

Image Gallery

Developed a robust image gallery web application built on the Next.js framework with server-side rendering.

- **Authentication:** Implemented a secure authentication system using NextAuth, supporting user sign-up and login with a flexible provider setup.
- **Data Management:** Managed user data and image metadata with a MongoDB NoSQL database, ensuring efficient and scalable storage.
- **Cloud Integration:** Utilized ImageKit.io for optimized image handling, including cloud-based storage, dynamic transformations, and delivery.
- **Security:** Enforced secure access to all user data and routes by integrating Next.js Middleware.

React E-commerce Frontend

Created a complete e-commerce front end to demonstrate core React.js skills, including routing, state management, and component architecture.

- **React.js:** Built a fully functional e-commerce storefront with a comprehensive product catalog, shopping cart, and checkout flow.
- **React Router:** Implemented client-side routing to provide fast navigation, a smooth experience without full page reloads.
- **Responsive Design:** Designed and styled a clean, responsive UI that works across desktop, tablet, and mobile devices.
